- To give students practical experience in conducting research and developing appropriate strategies to achieve communication objectives for a client in agriculture and/or natural resources.

- To give students opportunities to apply skills, theories and principles learned in the AEC curriculum.

**Why should you be excited about this course?** You are all about to embark on exciting personal and professional adventures. Some of you will start your own businesses. Some of you will be government or organizational leaders. Some of you will lead families seeking to be healthy and appreciate natural resources. Some of you will represent commodities or companies facing great challenges. As you go, I want you to be confident in your ability to communicate and lead with excellence. This class is a place for you to apply your communication and leadership skills. It’s a place to make mistakes and grow. It’s a place to ask “dumb” questions. ASSIGNMENTS:

Professional Campaign Portfolio & Mock Interview – You will create an online portfolio of your work to share with potential employers. Portfolios will include your resume, written work samples, video/photography work samples, design work samples, and social media work samples. Portfolios will be evaluated on professional/creative design, navigability, writing and the quality of the work included. You will also participate in a mock interview for a job. You will be evaluated on your professionalism and preparedness.

Situation Analysis – A situation analysis is a fundamental first step in a social or behavioral change communication campaign. It involves an examination of demographic data, study findings and other contextual information to understand the issues to be addressed in a campaign. It focuses on (1) the problem (severity and causes), (2) the people affected by the problem, (3) the broad context in which the problem exists, and (4) potential barriers to change or acceptance of any campaign.

Campaign Analysis Presentation – One of the ways we can learn about effective campaigns is by analyzing award-winning campaigns. Each student will be assigned an award-winning communications campaign to present to the class. You will give a 15-minute professional presentation to the class. You will be responsible for summarizing the important aspects of the campaign and incorporating visual examples to help your classmates learn about the campaign. You will also be responsible for leading a discussion about the campaign.

Final Campaign Plan & Presentation – In small groups, you will develop a comprehensive campaign plan based on the principles discussed in class throughout the semester. You will need to provide a situation analysis (based on your issue tracking reports), an analysis of your intended audience, objectives, strategies, tactics, a budget and an evaluation plan. You will also need to include written and visual design materials for your campaign. You will present your final campaigns on the last day of class.

Participation & Attendance – You should come to each class having read and studied the assigned readings for that week so that you can contribute to our class discussions. You should be able to provide an overview of each reading and explain how the readings relate to one another as a whole. High-quality participation means that you offer a number of informed comments and questions for each class period. We will also do weekly exercises in class to help you build your final campaigns. These cannot be made up unless you have a school-approved absence.

On the whole, student participation will be evaluated according to the following criteria:
- Consistent attendance
- Meeting deadlines and expectations articulated by the instructor.
- Consistent participation and engagement with the class community.
- Consistent participation and contribution to your group (during and outside of class).
- Listening and responding respectfully to ideas and questions posed by others.
POLICIES & GUIDELINES FOR SUCCESS IN THIS CLASS

Grade Discrepancies
If you have a question about a grade you receive on any of the course components, you must contact me within one week of getting the assignment back. After that, grades will not be discussed or modified. This discussion must occur in person. I am happy to meet with you during office hours. If that doesn't work, we can make an appointment at an alternate time. I do not discuss grades via phone or email.

Accommodations
If you know of any type of disability or barrier to your success in this class, please let me know as soon as possible. I want you to be successful and I am happy to work with you. Please note, students requesting classroom accommodation must first register with the Dean of Students Office. The Dean of Students Office will provide documentation to the student who must then provide this documentation to the instructor when requesting accommodation.

Class Absences
Attending class is essential to be successful in this course. Class attendance is the responsibility of the student. The student is expected to attend all classes. A student who finds it necessary to miss class assumes responsibility for making up examinations, obtaining lecture notes, and otherwise compensating for what may have been missed. The course instructor will determine the validity of a student's reason(s) for absences and will assist those students who have valid reasons. Requirements for class attendance and make-up exams, assignments, and other work in this course are consistent with university policies that can be found in the online catalog at: https://catalog.ufl.edu/ugrad/current/regulations/info/attendance.aspx

Professionalism
The reality of this field is that people judge you by how you present yourself. Your use of language, the clarity of your speaking and your general appearance and professional bearing will shape the opinions of those who are listening to you. If you deliver a poor, unprofessional presentation, your grade will suffer. I will also grade you on the basis of the facts you assemble, the astuteness of your analysis of the problem and the soundness of your recommendations.

Group Work
A large portion of your grade this semester will be based on group work. This brings both advantages and disadvantages. The advantage is that you are part of a team working together to solve a problem. On occasion some groups experience difficulties with a person who does not pull his/her weight on a project. If that happens in your group, you must:
Try to work it out as a group. Document the problem, how you tried to work it out and the outcome of that effort. Give this to me in a written statement.
1) If the outcome of your internal meetings and efforts is less than satisfactory, you should schedule a time to meet with me as a group to discuss and resolve the problem.
2) If this meeting still does not resolve the problem, then the group may ask permission from me to remove the individual who is not contributing to the group work.
If you are removed from your group, you will be required to complete the class assignments on your own. Your grade will also reflect your inability to work with your classmates and contribute to the group assignment.

**Writing**
To be successful in today’s world, it is critical that you write well. As such, your grade for each aspect of this course will be based on the quality of your thinking and writing. All assignments should be free of inaccuracies, weak thinking, typos, spelling errors and grammatical problems. Never turn in a first draft.

**AEC Expectations for Writing:**
In all courses in the Department of Agricultural Education and Communication’s Communication and Leadership Development (CLD) specialization, the following writing standards are expected to be followed, unless otherwise specified for a particular writing assignment. Not following these writing standards will result in substantially lower grades on writing assignments.

- Proper grammar and punctuation are mandatory.
- Proper sentence structure is required. This means...
  - Not using “tweet-talk” in your assignments.
  - Making sure that your sentences have a subject, verb, and (when needed) an object.
  - Not having sentence fragments.
  - And anything else that would pertain to “proper sentence structure.”
- No use of first person (I, me, my, mine, our) unless denoted within the assignment rubric.
- NO use of contractions.
- Good thoughts/content throughout the writing assignment.
- For assignments that require citations, use American Psychological Association style. Proper APA citation and reference document is expected.
- For assignments that are more reporter-style articles (news stories, news releases, public relations writing), you are expected to follow Associated Press Style, as discussed in AEC 4031.

**AEC Expectations for Design:**
In all courses in the Department of Agricultural Education and Communication’s Communication and Leadership Development (CLD) specialization, the following design standards are expected to be followed, unless otherwise specified for a particular writing assignment. Not following these design standards will result in substantially lower grades on design-related assignments.

- Proper grammar, punctuation, and sentence structure are mandatory. Although these are design assignments, writing has to be perfect so as not to detract from the design.
- For assignments that feature more reporter-style articles (news stories, news releases, public relations writing), you are expected to follow Associated Press Style, as discussed in AEC 4031.
- Use the proper photographic settings for the assignment (300 ppi for printed photos; 72 ppi for Web). Pixilated photos will result in lower grades.
• Students should not use copyrighted materials for design assignments. For example you may not “borrow” a graphic or design. Commercial artwork that is purchased may be used for assignments. Similarly, you may use ideas for a graphic/design assignment, but the use of the actual graphic/design is not acceptable.

• The following minimal design skills are expected to be demonstrated on all design assignments. The ability to resize an image, create documents in multiple columns, insert a graphic on a page, insert text with a graphic, alter the color of text and/or graphics. Additionally, the student should have moderate ability with the following software in order to complete design assignments:
  • Microsoft PowerPoint
  • Microsoft Word
  • Adobe Photoshop (photographs)
  • Adobe Illustrator (graphics). This software program is taught only in AEC4035. The expectations for actual graphic design in other courses will be minimal.
  • Adobe InDesign (print layout)
  • WordPress (Web)
  • Final Cut Express or ProX (video)

The University of Florida has an agreement with Lynda.com to provide FREE online tutorials to students and faculty on many software programs. If you feel “rusty” with any program, after being introduced to it in an AEC course, it is highly recommended that you take it upon yourself to go through some of the Lynda.com tutorials: http://www.it.ufl.edu/training/. Click on the Lynda.com yellow box on the right side of the screen.

**Deadlines**
Deadlines will be given for all work; these deadlines will not be extended. Meeting deadlines is essential to be successful in this course and in our field. Your work must be completed and handed in by the specified date and time. Incomplete work turned in by the deadline will receive partial credit. If you miss a deadline without having a valid excuse, you will receive zero points on the late work.

**Online Course Evaluation Process**
Students are expected to provide feedback on the quality of instruction in this course based on 10 criteria. These evaluations are conducted online at https://evaluations.ufl.edu. Evaluations are typically open during the last two or three weeks of the semester, but students will be given specific times when they are open. Summary results of these assessments are available to students at https://evaluations.ufl.edu.

UF students are bound by The Honor Pledge:

“We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honor and integrity by abiding by the Honor Code. On all work submitted for credit by students at the University of Florida, the following pledge is either required or implied: “On my honor, I have neither given nor received unauthorized aid in doing this assignment.”
The Honor Code ([http://www.dso.ufl.edu/sccr/process/student-conduct-honor-code/](http://www.dso.ufl.edu/sccr/process/student-conduct-honor-code/)) specifies a number of behaviors that are in violation of this code and the possible sanctions. Furthermore, you are obliged to report any condition that facilitates academic misconduct to appropriate personnel. If you have any questions or concerns, please consult with the instructor of this class.

**DIGITAL DEVICES** (cell phones, iPads, laptops): Laptops, tablets and smartphones are permitted and encouraged in this class. Please restrict use during class to class-related activities.

**Remind:** I will occasionally use a service called Remind to send you class updates and reminders via text. I will provide more instructions on how to sign up for this serve in class and via Canvas.

**Student Assistance and Emergencies**

University support services are available to students who are experiencing significant distress and/or personal emergencies. As appropriate please contact:

UF Counseling & Wellness Center: [www.counseling.ufl.edu](http://www.counseling.ufl.edu) or 352-392-1575

University Police Department: 352-392-1111 or 9-1-1 for emergencies

**Final Thought**

I want you to be successful in this class, and I will do my best to help you succeed. I am happy to help you address any challenges you face this semester; please come visit me during office hours to discuss any concerns or challenges.
