

AEC 3030C
Effective Oral Communication
Syllabus, Fall 2017

<http://lindaperry.us/aec3030/syllabus.htm>

AEC 3030C Effective Oral Communication focuses on strategies and techniques for effective presentations in the agricultural and life sciences. Emphasis is on oral and visual communication techniques for formal and informal situations, including leadership and group settings, as well as on speaker responsibility, articulation, critical thinking and listening, cultural awareness, science communication, and audience analysis.

Course objectives are to enable students (1) to communicate effectively about scientific topics and issues, (2) to communicate using clear and effective prose, (3) to tailor presentations to the needs and expectations of specific target audiences, (4) to communicate effectively within groups, and (5) to communicate responsibly.

Class expectations: Your instructors are committed to helping you improve your oral communication and presentation skills. To that end, **you can expect** constructive feedback on your assignments and opportunities to apply that feedback for improvement.

We expect punctual attendance, collegial class participation, on-time submission of assignments, and honest effort. While in class, please don't distract yourself and others with personal uses of your laptop or cellphone. Please mute your cellphones.

Assignments: Assignment instructions will be accessible from Canvas or the class [website](#). All assignments are due in class, lab, or Canvas by the dates and times listed below. **Unexcused late work in lab** will result in a zero score for any assignment due that day. Following UF protocol, you must notify Dr. Perry and your lab instructor two weeks in advance and provide documentation for any UF-approved activity. You must notify Dr. Perry and your lab instructor within 24 hours if you are ill or have an emergency that prevents on-time submission of work. **Submit written assignments electronically** in Microsoft Word via Canvas, unless otherwise specified in class.

Assignments, cont.: Late written assignments are penalized 10% per day. **You are responsible** for submitting assignments correctly and assuring they have uploaded successfully.

For information on current UF policies for assigning grade points, see <https://catalog.ufl.edu/ugrad/current/regulations/info/grades.aspx>

Academic Honesty: Academic honesty is expected, just as high ethical standards are required professionally. There will be zero-tolerance for anything less. That includes not: giving, accepting or taking unauthorized aid, including looking at colleagues' exam papers; plagiarizing websites; plagiarizing others' **or your own previous work**; or doubling on assignments without the permission of all involved professors and instructors.

Plagiarizing includes taking **verbatim phrases of more than a few words** without full attribution. Violations will be pursued according to university guidelines. Students should report any condition that facilitates dishonesty to the instructor, department chair, college dean, Student Honor Council, or Student Conduct in the [Dean of Students Office](#).

More on plagiarism is on page 4 of this syllabus.

Attendance: **To succeed in this course, you must come to class.** You are responsible for all information delivered in class, including information for the exam and assignments. *Students unable to attend class are responsible for proactively obtaining class notes and handouts.* Make-up exams and deadline extensions are granted only in cases of *documented* excused absences.

Special Needs: Students requesting classroom accommodation must first register with the [Dean of Students Office](#), which will provide documentation for the accommodation. It is the *student's responsibility* to assure the documentation is delivered to the instructor. More related information is on page 4 of this syllabus.

Plagiarism and Copyright

When communicating about science, we base our work on **facts** obtained from a variety of sources. We can freely use factual information from the public domain. We **cite our sources** so others can access the information we present. We give credit where it is due. We are very careful to use others' *unique expression* of that information both ethically and lawfully. *Unique expression* can be a phrase of a few words or a simple hashtag moniker. We must obtain permission to use our sources' expression, or give full credit for a *limited, fair use*.

Assignments submitted via Canvas are automatically vetted for **plagiarism** with Turnitin.

Academic Honesty

In 1995 the UF student body enacted an [honor code](#) and voluntarily committed itself to the highest standards of honesty and integrity. When students enroll at the university, they commit themselves to the standard drafted and enacted by students.

The **Honor Pledge**: “We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honesty and integrity.”

On all work submitted for credit by students at the university, the following pledge is either required or implied: “On my honor, I have neither given nor received unauthorized aid in doing this assignment.”

Students should report any condition that facilitates dishonesty to the instructor, department chair, college dean, Student Honor Council, or Student Conduct and Conflict Resolution in the Dean of Students Office.

(Source: 2013-2014 Undergraduate Catalog, <https://catalog.ufl.edu/ugrad/current/advising/info/student-honor-code.aspx>)

It is assumed all work will be completed independently unless the assignment is defined as a *group project*, in writing by the instructor. This policy will be vigorously upheld at all times in this course.

Software Use

All faculty, staff and students of the university are required and expected to obey the laws and legal agreements governing software use. Failure to do so can lead to monetary damages and/or criminal penalties for the individual violator. Because such violations are also against university policies and rules, disciplinary action will be taken as appropriate.

Campus Helping Resources

Students experiencing crises or personal problems that interfere with their general well-being are encouraged to utilize the university's counseling resources. The Counseling & Wellness Center provides confidential counseling services at no cost for currently enrolled students. Resources are available on campus for students having personal problems, lacking clear career or academic goals, or experiencing other problems that may interfere with their academic performance.

Services for Students with Disabilities: The Disability Resource Center — 0001 Reid Hall, 352-392-8565, www.dso.ufl.edu/drc/ — coordinates the accommodations needed for students with disabilities. This includes registering disabilities, recommending academic accommodations within the classroom, accessing special adaptive computer equipment, providing interpretation services, and mediating faculty-student disability related issues.
