Office Hours: Office Hours are built into the class. If you need additional time above what is provided in the course, I would be happy to set up additional hours by appointment.

Course Overview

This course creates a capstone experience for the Global Challenge Certificate. Throughout this course, students will demonstrate and apply knowledge, skills, and dispositions in assigned transdisciplinary teams. This course is a direct reflection of the “real work, for real problems, for real people” concept and is a critical part of the challenge-based authentic learning approach.

Course Objectives

Given participation in the course, students will have the opportunity to engage in the mastery of the following objectives:

- 1) Gain experiential knowledge associated with the process of accomplishing strategic goals with interdisciplinary classmates
- 2) Recognize how completion of a developed action has tangible value and community-level application
- 3) Explore adaptive challenges and advance adaptive capacity for the development and implementation of solutions associated with global population fluctuation
- 4) Develop confidence and commitment for community and global leadership

Course Structure

Progression through this course is self-directed with instructor led parameters. Students will formally meet every Wednesday to plan and complete the two major assignments. The instructor will facilitate team building and leadership development efforts while serving as a resource during this process.

Course Requirements

Attendance - The course is designed to encourage active learning, therefore being present in class is extremely important. Students will receive 1/3 of their grade for showing up to class prepared to discuss their ideas and the information from the course.

EDIS Publication – Students will be preparing an EDIS publication on the issue they have researched throughout the program or another (similar) issue within Agriculture and Natural Resources. This will count for 1/3 of their grade.

ReCap Article (Major Project) – The student will be asked to reflect on their time in the program and write an article that details their learning throughout. The projects objectives, rubrics, and

additional information will be provided on October 27th (during class). The major project is worth 1/3 the students grade.

Course Grading Scale:

A 93.4-100 %	A- 90-93.3%	B+ 86.7-89.9 %	B 83.4-86.6 %

Students are expected to provide feedback on the quality of instruction in this course by completing online evaluations at <https://evaluations.ufl.edu>. Evaluations are typically open during the last two or three weeks of the semester. Students will be given specific times when the evaluations are available. Summary results of these assessments are available to students at <https://evaluations.ufl.edu/results/>.

Course Policies:

E-Learning: All students are expected to check E-Learning (<http://lss.at.ufl.edu>) on a regular basis. Please ensure that you have access to this service. Grades are posted here.

Academic Integrity: We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honesty and integrity.

In the fall of 1995, the UF student body enacted a new honor code and voluntarily committed itself to the highest standards of honesty and integrity (See UF Rule [6C1-4.017](#)). Students are required to be honest in all of their university class work. Faculty members have a duty to promote ethical behavior and avoid practices and environments that foster cheating. Faculty should encourage students to bring incidents of dishonesty to their attention. A faculty member, in certain circumstances, can resolve an academic dishonesty matter without a student disciplinary hearing. The procedures and guidelines are available from the [Student Guide](#). All students at the University of Florida have pledged, *On my honor, I have neither given nor received unauthorized aid in doing this assignment* (2014-2015 Undergraduate Catalog).

Software Use: All UF faculty, staff and students are required and expected to obey the laws and legal agreements governing software use. Failure to do so can lead to monetary damages and/or criminal penalties for the individual violator. Because such violations are also against university policies and rules, appropriate disciplinary action will be taken.

Campus Helping Resources:

Students experiencing crises or personal problems that interfere with their general well-being are encouraged to utilize the university’s counseling resources. The Counseling & Wellness Center provides confidential counseling services at no cost for currently enrolled students. Resources are available on campus for students having personal problems or lacking clear career or academic goals, which interfere with their academic performance.

In-Class Recording:

- Students are allowed to record video or audio of class lectures. However, the purposes for which these recordings may be used are strictly controlled. The only allowable purposes are (1) for personal educational use, (2) in connection with a complaint to the university, or (3) as evidence in, or in preparation for, a criminal or civil proceeding. All other

purposes are prohibited. Specifically, students may not publish recorded lectures without the written consent of the instructor.

- A “class lecture” is an educational presentation intended to inform or teach enrolled students about a particular subject, including any instructor-led discussions that form part of the presentation, and delivered by any instructor hired or appointed by the University, or by a guest instructor, as part of a University of Florida course. A class lecture does not include lab sessions, student presentations, clinical presentations such as patient history, academic exercises involving solely student participation, assessments (quizzes, tests, exams), field trips, private conversations between students in the class or between a student and the faculty or lecturer during a class session.
- Publication without permission of the instructor is prohibited. To “publish” means to share, transmit, circulate, distribute, or provide access to a recording, regardless of format or medium, to another person (or persons), including but not limited to another student within the same class section. Additionally, a recording, or transcript of a recording, is considered published if it is posted on or uploaded to, in whole or in part, any media platform, including but not limited to social media, book, magazine, newspaper, leaflet, or third party note/tutoring services. A student who publishes a recording without written consent may be subject to a civil cause of action instituted by a person injured by the publication and/or discipline under UF Regulation 4.040 Student Honor Code and Student Conduct Code.

Services for Students with Disabilities:

The Disability Resource Center coordinates the needed accommodations of students with disabilities. This includes registering disabilities, recommending academic accommodations within the classroom, accessing special adaptive computer equipment, providing interpretation services and mediating faculty-student disability related issues. Students requesting classroom accommodation must first register with the Dean of Students Office. The Dean of Students Office will provide documentation to the student who must then provide this documentation to the Instructor when requesting accommodation. Students should follow this procedure as early as possible in the semester. 0001 Reid Hall, 352-392-8565, www.dso.ufl.edu/drc/
