**AEC 3033C Research & Business Writing in Agricultural and Life Sciences** focuses on strategic written communication for agricultural and life sciences. Students can hone their writing skills and gain experience in effective professional and scholarly writing. Emphasis is placed on science communication, ethics, responsibility, accuracy, clarity, brevity, and style as well as American English grammar and spelling.

**Course objectives** are to enable students to (1) write effectively in business, scientific, and academic contexts, (2) write using clear, concise, and effective prose as well as accurate grammar, spelling, and punctuation, and (3) communicate information tailored to meet the needs and expectations of target audiences.

**Recommended:** L. Faigley (2012), *The Brief Penguin Handbook with Exercises 4<sup>th</sup> ed.*, Boston: Longman.

**Class expectations:** The instructors are committed to helping you improve your writing and critical thinking skills. To that end, **you can expect** constructive feedback on your writing assignments and opportunities to apply that feedback with **rewrites** for four of the assignments. The rewrites can help you improve both your writing and your scores for those assignments.

**We expect** collegial and timely class participation via the Canvas discussion boards, on-time submission of assignments, and honest effort.

**Academic Honesty:** Academic honesty is expected, just as high ethical standards are required professionally. There will be zero-tolerance for anything less. That includes not giving, accepting or taking unauthorized aid, including looking at colleagues' exam papers; plagiarizing websites; plagiarizing others' **or your own previous work**; or doubling on assignments without the permission of all involved professors and instructors.

**Plagiarizing** includes taking **verbatim phrases of more than a few words** without full attribution. When writing for science and business, we base our work on **facts** obtained from a variety of sources. We can freely use factual information from the public domain. We **cite our sources** so others can access the information we present. We give credit where it is due. We are very careful to ethically and lawfully use others' **unique expression** of that information. *Unique expression* can be a phrase of a few words or a simple hashtag moniker. We must obtain permission to use our sources' expression or give full credit for a *limited, fair use*. Assignments submitted via Canvas are automatically vetted for plagiarism with Turnitin. Violations will be pursued according to university guidelines.

**Assignments:**

An important part of professional and research writing is meeting **deadlines**. Therefore, **late work** is penalized 10% of the available points for that assignment *per day* unless you have a documented, excused absence. You must notify Dr. Perry two weeks in advance and provide official documentation for any UF-approved activity.

You will **submit assignments electronically** in Microsoft Word via Canvas. **Rewrites**, when available, must be submitted **within one week** after the graded assignment is returned to you. **Late rewrites will not be accepted. You are responsible** for submitting assignments correctly, assuring they have uploaded successfully, and checking Canvas for their *return*.

## **UF Academic Honesty, Software Use, Campus Helping Resources, Services for Students with Disabilities**

### ***Academic Honesty***

In 1995 the UF student body enacted an [honor code](#) and voluntarily committed itself to the highest standards of honesty and integrity. When students enroll at the university, they commit themselves to the standard drafted and enacted by students.

The **Honor Pledge**: “We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honesty and integrity.”

On all work submitted for credit by students at the university, the following pledge is either required or implied: “On my honor, I have neither given nor received unauthorized aid in doing this assignment.”

Students should report any condition that facilitates dishonesty to the instructor, department chair, college dean, Student Honor Council, or Student Conduct in the [Dean of Students Office](#). (Source: *Undergraduate Catalog*, <https://catalog.ufl.edu/ugrad/current/advising/info/student-honor-code.aspx>)

It is assumed all work will be completed independently unless the assignment is defined as a *group project*, in writing by the instructor. This policy will be vigorously upheld at all times in this course.

### ***Software Use***

All faculty, staff and students of the university are required and expected to obey the laws and legal agreements governing software use. Failure to do so can lead to monetary damages and/or criminal penalties for the individual violator. Because such violations are also against university policies and rules, disciplinary action will be taken as appropriate.

### ***Campus Helping Resources***

Students experiencing crises or personal problems that interfere with their general well-being are encouraged to utilize the university’s counseling resources. The Counseling & Wellness Center provides confidential counseling services at no cost for currently enrolled students. Resources are available on campus for students having personal problems, lacking clear career or academic goals, or experiencing other problems that may interfere with their academic performance.

This includes registering disabilities, recommending academic accommodations within the classroom, accessing special adaptive equipment, providing interpretation services, and mediating faculty-student disability-related issues.
