

AEC 3033C
Research and Business Writing ONLINE
§ 7C49, §77F6 Syllabus, Summer C 2019

Dr. Linda M. Perry

AEC 3033C Research & Business Writing in Agricultural and Life Sciences focuses on strategic written communication for agricultural and life sciences. Students can hone their writing skills and gain experience in effective professional and scholarly writing. Emphasis is placed on science communication, ethics, responsibility, accuracy, clarity, brevity, and style as well as American English grammar and spelling. This course establishes the importance of effective communication to success in both educational and professional environments; emphasizes writing as a primary form of communication; examines the elements of effective written communication in organizational and scholarly areas; and explores the causes of ineffective writing and ways to correct them.

Course objectives are to enable students to (1) write effectively in scientific, business, and academic contexts, (2) write in a variety of genres using accurate grammar, spelling, and punctuation, and (3) communicate information tailored to the needs and expectations of target audiences.

Textbook: Johnson-Sheehan Richard, *Technical Communication Today 6th ed.*, Pearson, (2018)
ISBN: 9780134425733 (The fifth edition is acceptable; electronic version via Canvas).

Recommended: L. Faigley (2012), *The Brief Penguin Handbook with Exercises 4th ed.*, Boston: Longman.

Other materials: Lecture notes as well as assignment instructions will be posted on Canvas. The lecture notes are *not* a substitution for viewing the recorded lectures.

Class expectations: The instructors are committed to helping you improve your writing and critical thinking skills. To that end, **you can expect** constructive feedback on your writing assignments and opportunities to apply that feedback with **rewrites** for four of the assignments. The rewrites can help you improve both your writing and your scores for those assignments. **We expect** collegial and timely class participation via the Canvas discussion boards, on-time submission of assignments, and honest effort. **To succeed in this course, you must complete all requirements for each module.** You are responsible for all information delivered in class, including information given in lectures that does not appear elsewhere in Canvas. Make-up quizzes and assignment-deadline extensions are granted only in cases of *documented* excused absences consistent with university policies:
<https://catalog.ufl.edu/ugrad/current/regulations/info/attendance.aspx>

Academic Honesty: Academic honesty is expected, just as high ethical standards are required professionally. There will be zero-tolerance for anything less. That includes not giving, accepting or taking

unauthorized aid, plagiarizing websites; plagiarizing others' *or your own previous work*; or doubling on assignments without the permission of all involved professors and instructors.

Plagiarism and Copyright: Plagiarizing includes taking **verbatim phrases of more than a few words** without permission or full attribution. When writing for science and business, we base our work on **facts** obtained from a variety of sources. We **cite our sources** so others can access the information we present. We give credit where it is due. We are very careful to ethically and lawfully use others' *unique expression* of that information. *Unique expression* can be a phrase of a few words or a simple moniker. We must obtain permission to use our sources' expression or give full credit for a *limited, fair use*. Assignments submitted via Canvas are automatically vetted for plagiarism with Turnitin. Violations will be pursued according to university guidelines. University of Florida's statement on academic honesty is on page 4 of this syllabus.

Assignments:

You will **submit assignments electronically** in Microsoft Word via Canvas, following the instructions in Canvas Assignments. **Late work** is penalized 10% of the available points for that assignment *per day* unless you have a documented, excused absence. You must notify Dr. Perry two weeks in advance and provide documentation for any UF-approved activity.

Optional rewrites, when available, must be submitted for credit *within one week* after the graded assignment is returned to you. **Late rewrites will not be accepted.** You are **responsible** for submitting assignments correctly, assuring they have uploaded successfully, and checking Canvas for their *return*. If English is your second language, you may seek specialized help in the UF Writing Studio: <http://writing.ufl.edu/writing-studio/for-students/esl-assistance/>.

UF Academic Honesty, Software Use, Campus Helping Resources, Services for Students with Disabilities

Academic Honesty

The UF student body has enacted an honor code and has committed itself to the highest standards of honesty and integrity. When students enroll at the university, they commit themselves to the standard enacted by students.

The **Honor Pledge**: “We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honesty and integrity.”

On all work submitted for credit by students at the university, the following pledge is either required or implied: “On my honor, I have neither given nor received unauthorized aid in doing this assignment.”

Students should report any condition that facilitates dishonesty to the instructor, department chair, college dean, Student Honor Council, or Student Conduct and Conflict Resolution in the Dean of Students Office.

(Source: <https://sccr.dso.ufl.edu/policies/student-honor-code-student-conduct-code/>)

It is assumed all work will be completed independently unless the assignment is defined as a *group project*, in writing by the instructor. This policy will be vigorously upheld at all times in this course.

Software Use: All faculty, staff and students of the university are required to obey the laws and legal agreements governing software use. Failure to do so can lead to monetary damages and/or criminal penalties. Because such violations are also against university policies and rules, appropriate disciplinary action will be taken.

Evaluation of Online Courses

Students are expected to provide feedback on the quality of instruction in this course by completing online evaluations at <https://evaluations.ufl.edu>. Evaluations are typically open during the last two to three weeks of the semester. Students will be given specific times when they are open. Summary results of these assessments are available to students at <https://evaluations.ufl.edu/results/>

Campus Helping Resources

Students experiencing crises or personal problems that interfere with their general well-being are encouraged to utilize the university’s counseling resources. The Counseling & Wellness Center provides confidential counseling services at no cost for currently enrolled students. Resources are available on campus for students having personal problems, lacking clear career or academic goals, or experiencing other problems that may interfere with their academic performance.

Services for Students with Disabilities: The Disability Resource Center — 0001 Reid Hall, 352-392-8565, www.dso.ufl.edu/drc/ — coordinates accommodations needed for students with disabilities. Students requesting special accommodations must first register as early in the semester as possible with the [Dean of Students Office](#), which will provide documentation. It is the *student's responsibility* to assure the documentation is delivered to the instructor. Accommodations include registering disabilities, accessing special adaptive equipment, providing interpretation services, and mediating faculty-student disability-related issues.
