Assignment Descriptions

**Personal Growth Project**

**Project Video:**
Challenging yourself to learn a new skill over the semester will be our capstone project. Through the process of skill development, you will have the opportunity to engage with and experience the topics we will discuss over the semester. While you are practicing for your project you will record brief video logs documenting what you are doing and how your project is going. You will be required to identify a mentor who has experience in the topic to give you feedback throughout your experience. After you have attempted your new skill a minimum of two times, you will combine your video clips into a final video. Beyond your video clips in the final video, you will explain how your project has related to the topics we have discussed in the semester. This video should be a minimum of five minutes to a maximum of ten minutes. You will be graded off of your content rather than your video-editing skills. To ensure that you are working on your project throughout the semester, there will be a random check-in via discussion post.

**Topic Selection:**
Before you engage in your personal growth project, you must select a project topic. For this assignment, you must explain the new skill or topic you are learning, why you chose it, and who you have identified to give you feedback on your growth. Once your topic is approved by the instructor, you are welcome to begin trying to learn your new skill. Before you get started, read more information on the Personal Growth Project topic selection and download the submission template under the assignments tab in e-Learning.

**Reflections:** Due throughout the semester
You will complete exercises and activities for this course. Reflections allow you to engage with the material individually. Each reflection will be different and challenge you to make connections from the material to your past, future, and current contexts. If the reflection requires an assessment or exercise to be completed, the points associated with those questions will be forfeited if proof of the assessment or exercise is not provided.

**Dialogue Posts:** Due throughout the semester
Using the discussion board feature on e-Learning, you will share your thoughts, results, or projects in a dialogue post. As this is a dialogue, asking questions, writing thought-provoking comments, and answering the responses on your own post is required and differs on a post by post basis.

**Personal Leadership Vision:**
A good leader has a vision for their life based on their values. For this assignment, you will describe your personal vision as it applies to different aspects of your life and produce goals to achieve your vision. This will clarify your values and align your actions and behaviors with these.

**Leadership Portfolio:**
For this assignment, you will create a short leadership learning statement that summarizes how you lead. You will also produce a leadership concept map of how you visualize the connectivity between leadership concepts from this course. Additionally, you will compile your personal assessment results from throughout the course into a leadership portfolio.

**Quizzes:** Due throughout the semester
Quizzes will cover the content in the course since the previous quiz. They are not cumulative; however, as the course content builds on itself, you may need prior information to do well. Quizzes can include any information from the lectures, leadership assessments, videos, activities, and readings.

**Dynamic Populations Project:**
As a leader, you will interact with various populations. For this assignment, you will be asked to synthesize best leadership practices to aid in leading a specific population (agriculture and natural resources, healthcare, children, etc.) you may interact with in your future endeavors.

You may submit ONE late assignment within seven days of its due date without penalty. Otherwise, late assignments will receive a zero unless prior accommodations have been approved by the instructor or you have a valid, University-approved excuse. Students are expected to complete all assignments within the course during the time frame specified. It is your responsibility to make sure your assignments have been received by the instructor; if you suspect you are having computer issues, you will need to submit a copy of a UF Help Desk ticket as proof of your technical issues. Otherwise, your assignment will be considered late.

Academic Integrity: The University of Florida holds its students to the highest standards, and we encourage students to read the University of Florida Student Honor Code and Student Conduct Code (Regulation 4.040), so they are aware of our standards. Any violation of the Student Honor Code will result in a referral to Student Conduct and Conflict Resolution and may result in academic sanctions and further student conduct action. The two greatest threats to the academic integrity of the University of Florida are cheating and plagiarism. Students should be aware of their faculty’s policy on collaboration, should understand how to properly cite sources, and should not give nor receive an improper academic advantage through any medium.

Collaboration: No student may work or collaborate with another person on any academic activity in this course. Should group work be assigned or this class policy change, I will provide that in writing on the individual assignment instructions.

Feedback: The instructor team will provide students with feedback within two weeks of the submission deadline. This excludes any UF holidays, natural disasters, or holiday breaks.

Software Use: All faculty, staff, and students of the university are required and expected to obey the laws and legal agreements governing software use. Failure to do so can lead to monetary damages and/or criminal penalties for the individual violator. Because such violations are also against university policies and rules, disciplinary action will be taken as appropriate.
Course Evaluations: Students are expected to provide professional and respectful feedback on the quality of instruction in this course by completing course evaluations online via GatorEvals. Guidance on how to give feedback in a professional and respectful manner is available at https://gatorevals.aa.ufl.edu/students/. Students will be notified when the evaluation period opens, and can complete evaluations through the email they receive from GatorEvals, in their Canvas course menu under GatorEvals, or via https://ufl.bluera.com/ufl/.
